OBJECTIVE

Results-driven software engineer with a strong technical background and a passion for developing cutting-edge solutions. Seeking a software engineer position where I can utilize my expertise in web development, programming, and software engineering to drive innovation and deliver high-quality results. Committed to continuous learning and improvement, I strive to contribute to the success of the team and organization by delivering impactful solutions that exceed expectations.

TECHNICAL SKILLS

Front End: React, JavaScript, HTML, CSS, JQuery, Bootstrap
Back End: Python, PostgreSQL, MySQL, Node.js, Express.js, Flask
Developer Tools: Git, Docker, Google Cloud Platform, VS Code, Visual Studio, PyCharm
Soft Skills: Organization, Problem-solving, Customer-service skills, Verbal and Written Communication

PROJECTS

Custom GPT | *Open AI API,React, Node, Express, HTML, CSS* May 2023 – Present
- Description: This application is a custom-designed UI that integrates with OpenAI's API - Chat. It is preloaded with different prompts and allows the user to ask for their own specific instructions. The primary goal behind this application is to provide users with more efficient prompts than are typically provided.
- Developed a user-friendly UI using React to interact with OpenAI's Chat API. **GitHub**
- Implemented custom prompts and enhanced prompt generation logic to improve user experience.

LoLify | *Python, Flask, PostgreSQL, HTML, CSS* March 2023 – Present
- Developed a full-stack web application with Flask/Python with HTML as the frontend **Live Version**
- Implemented Riot Games API to gather data about users **GitHub**
- Used PostgreSQL to store user data
- Allowed users to sign up and view the analytics of League Of Legends match data

LA County Covid-19 Outreach Program |
- Worked within Microsoft Teams to help onboard County Health Workers from different organizations in Los Angeles
- Implemented training's/instructions on how to operate within tracking software
- Coordinated meetings for internal and external staff on new research and tracking methods
- Managed the ordering for sanitation supplies (Masks, Gloves, Etc.) to be distributed to various organizations

EXPERIENCE

Administrative Assistant II June 2021 – Present
LOS ANGELES COUNTY DEPARTMENT OF HEALTH *Los Angeles, CA*
- Provide administrative support to a team of Public Health Investigators, Public Health Nurse Supervisors, and Epidemiologists assigned to COVID-19 outbreak investigations
- Ensure the outbreak investigation process is running smoothly, track and manage electronic records of daily reports
- Managed expense reports for department team members and assisted with meetings
- Scheduled and coordinated meetings, appointments, and expense reports for supervisors and managers
